Ability Grouping in Education | SAGE Publications Ltd

Grouping students by ability for purposes of instruction has been a source of debate in American public education almost since the inception of the practice in the late 1860s. Over the past 140 years, ability grouping has experienced various levels of support and adoption. In the first quarter of the 20th century, for instance, ability grouping experienced a rise in popularity that coincided with the universal schooling movement and the introduction of intelligence testing and scientific ...
